

Mulloon Creek Natural Sequence Farming Demonstration is Going Big!

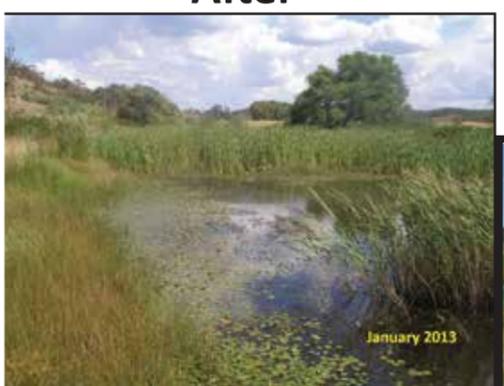

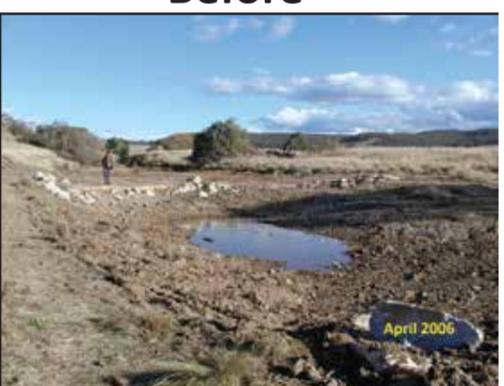

10 years on - So successful is the original NSF Demonstration that it is expanding to the whole catchment, an area of 23,000Ha. Called the Mulloon Community Landscape Rehydration Project (MCLRP), it will vastly improve:

- Productivity
- Water quality
- Stream flow
- Biodiversity
- Resilience

Before

After

Mulloon Creek Natural Farms - Bungendore, NSW
 Bookings Essential:
www.themullooninstitute.org
donna@themullooninstitute.org / 0413 535 957
